**SECTION 8.03. WATER AND SEWER CONNECTION
FEES.**

Pursuant to Section 66001 of the Government Code, the City Council hereby determines:

(1) The purpose of the water and sewer connection charges is to assure payment by developers of their pro rata share of the escalated cost of the City's water system and wastewater treatment plant.

(2) The charge will be used to reimburse the City for the owner or developer's fair share of the use of the water system and the treatment plant.

**MASTER FEE SCHEDULE
FISCAL YEAR 2000/2001**

WATER AND SEWER CONNECTION FEES (contd.)

(3) There is a reasonable relationship between the use of the fees, the need for a water system, the need for a wastewater treatment plant, and the types of development projects upon which the fee is imposed. All development projects create varying needs for the consumption of water which cannot be fulfilled unless the project is connected to the municipal water system to assure an adequate supply of water to each project, and all development projects generate sewage and create the need for disposal and treatment at a wastewater treatment plant. The degree to which each project is charged is based upon factors related to degree of potential usage, such as type and size of projects and number of units and calculations of the escalated cost of the City's wastewater treatment plant, adjusted for inflation; the current capacity of the plant; the cost of treatment per equivalent single-family dwelling unit; and the estimated daily discharge for each facility to be connected to the wastewater treatment system, taking into account proportionate average daily discharge of sewage, total organic carbon, suspended solids, and ammonia nitrogen.

The fees or charges shall be collected from the owner or developer of property either (1) prior to approval of the original connection of the property to the water or sanitary sewer system, or a redevelopment, or (2) in the event the uses being made of the property presently connected to the system are enlarged, added to, or further structures are constructed on the property.

A. Water Frontage Fee. A frontage fee per lineal foot of frontage shall be paid by the owner or developer of property contiguous to a public right-of-way in which a water main has been installed or is to be installed without direct expense to the owner or developer other than payment of the charges specified herein. Frontage of corner lots, as the term "frontage" is used herein, shall mean the side of the lot to which the City has authorized a water connection.

\$37.00

**MASTER FEE SCHEDULE
FISCAL YEAR 2000/2001**

WATER AND SEWER CONNECTION FEES (contd.)

B. Water Connection Fees. The connection fee to be paid for each parcel or property served through the same water lateral by the owner or developer of residential, commercial, industrial, or industrial property shall be computed as follows:

Residential and Commercial Units:

First Unit	\$374.00
Second and each additional unit	\$272.00

Industrial and Institutional Unit

First Unit	\$374.00
Second Unit	\$272.00
Third Unit	\$205.00
Fourth and each additional unit	\$142.00

The following definitions shall be used for the purpose of determining the connection fee in this section:

(a) A residential "unit" shall mean one or more rooms used for living purposes by one family.

(b) A commercial, industrial, or institutional "unit" shall mean each one thousand (1,000) square feet of gross floor area, or fraction thereof devoted to commercial, industrial, or institutional purposes.

(c) "Institutional property" shall mean property used only for the erection and maintenance of church, school, hospital, or public buildings.

C. Water Service Lateral Fee.
